

My Mother

Gailie Tse (Age 8)

My mother is a smart and nice mother. I like her very much. But I didn't celebrate Mother's Day with her in the past because I was busy doing revision and homework. That's why I would like to write a composition this Mother's Day. How about you?

The thing I enjoy doing with my mother is watching a funny movies in the cinema! My mother took me to watch "Moana" and "Zootopia". My mother would buy me a big tub of popcorn and a cup of Coca-Cola. It is extremely yummy!

My mum is good at swimming. Once, I went swimming with her. She was so fast that I couldn't catch up. But finally, she waited for me in the corner. I was panting by the time I caught up with her. When we left the swimming pool, my mother me bought an ice-cream with green tea flavor, it was sweet!

My mother is the best. I love to read books with my mother. She always brings happiness to me and I am grateful to her. She is my best friend forever!
