

My Mother

Elden Yeung (Age 10)

Is your mother funny, sleepy, brave, caring or helpful? My mother is funny, brave, nice and hardworking. She has long black hair, big face and small ears. She is also fit.

My mum is knowledgeable. She tells me everything about our bodies because she is a nurse. Another thing she always tells me is how important our lives are. She says, 'Our lives are made by God. If you jump off the building and you die, you need to apologize to God.' I am very thankful for the things she has taught me.

On weekends, my mother always spends time with us. We go running, playing on the swings, playing basketball and badminton in the park. After that, we will go home and bake some bread. We need flour, sugar and eggs. Sometimes we will have a 'flour fight' and throw flour at each other!

My mum is the most generous and patient mother. Although sometimes she will get angry and give me a spanking, she does it for my good. I think my mum is the best mother ever!
