Do you know who is the most caring family member in my home? She is a joyful person, she has short curly gold hair and beautiful eyes. That's my MOM! she's always caring because when I have a problem I can't solve, she will help me.

Like one day, two of my enemies were cyberbullying me, I feel very sad so my mom advice me how to solve them and try help me to relax. And also long time ago, one of my friend always grumpy. I try to comfort her but she still in trouble. I told my mom about it and she discuss with me. Now my grumpy friend turn to a happy person!

We always love to talk about special things that happened on that day. She is very good at ballet dancing but because I need to go to swimming, mom sacrificed her time for me instead of doing ballet.

She always says that I am her " Sweet Heart " or " Little Pig ", I love to hear it .

I love my mom nomatter what.
